

GoTimeCloud

Cloud-based Time Attendance Management Solution

GOTIME CLOUD

GoTime Cloud is a cloud-based Time Attendance Management Solution, that centralizes your employee's real-time information and Time Attendance fingerprint and RFID devices on a single platform, making this data accessible from web browsers, no matter where you are.

With GoTime Cloud your company and employee's data are secure at AWS through your web browser of choice and without requiring any previous infrastructure or software application. Our solution adapts to any change in your company, allowing you to plan and configure without limitations, everything related to the way you track time and attendance. You can create advanced calendars, tailored schedules or configure all shifts for your company. GoTime Cloud is one centralized cloud-computing environment that ensures that all your existing facilities anywhere in the world work in the same way, letting your employee's remote clock in/out and tracking the exact time and GPS locations.

Cloud-based Time Attendance Management Solution

Complies with Time and Attendance tracking laws

Assign rotating shifts, day shifts, night shifts, keeping all your operating hours covered

Time Attendance Management from anywhere in the world

Remote clock in/out tracking with the exact time and GPS locations

Flexible calendars and schedules

Ideal for small, medium and large companies. Generate reports.

Features

Centralize your installations in one platform

GoTime Cloud is a centralized, cloud-based solution, that lets you manage Time Attendance of thousands of employees and hundreds of devices from a single platform on-line, ensuring that all your existing facilities and Time Attendance devices work in the same way, anywhere in the world.

Create advanced calendars and tailored schedules

Configure and assign rotating shifts, day shifts, night shifts, keeping all your operating hours covered. This data is then processed to accurately calculate payrolls and accrued hours.

Easily view and manage your employees' incidences or petitions

Record real-time attendance data from various sources, control punches or view employees' time allowed for a specific request. Your employees will be able to interact with GoTime Cloud and visualize their data, being able to request changes and submit them for approval.

Accrued balance hours

Manage payrolls, accurately define and calculate hourly totals, control accrued balance hours and keep your company in compliance with labour laws.

Generate reports

Easily generate reports for clocking, absenteeism, accrued balance, attendance events, payrolls, and much more. You can also easily export your data to Excel, Microsoft Word, CSV file, XML, Excel spreadsheets and PDF.

Remote clock in/out

Allows remote clock in/out tracking providing exact time and GPS location information.
